

# IMMI VP EVOLUTION

## Rebuild, Rejuvenate and Renew

- Higher concentration of active ingredients
- Stronger potency formulation\* for optimum bio absorption
- High nutrient contents with a wide range of health benefits

**Enhanced formulation of Vegetal Placenta Extracts with botanical ingredients for skin rejuvenation, cellular renewal, cardiovascular health, and complete wellness.**

IMMI VP EVO is an enhanced version of VP Advanced Formula Softgels.

It combines the benefits of vegetal placenta extracts and two types of potent antioxidant from botanical sources. VP EVO brings essential nutrients to the human body with a list of selected ingredients, to ultimately help you in improving your wellness through skin and cellular rejuvenation and revitalization. It supports cellular damage repair caused by environmental factors and aging, boosts collagen and elastin production and improves natural metabolic processes for better cardiovascular performance and healthier features.

Benefits:

Healthy cardiovascular  
Regulate hormonal imbalance  
Reduce Post-menopausal symptoms  
Healthy aging  
Healthy skin  
Overall wellness

# Main Active Ingredients

## VP EVOLUTION

### Dermacenta Plus

(Soy Bud Vegetal Extract, Bud Herbal Active Compounds of Lepidium meyenii, Vitis vinifera and Panaxoside)  
**100:1** extraction concentration ratio. Equivalent to **14,000mg** of vegetal placenta extract.  
 Low dosage with high extraction ratio to provide higher purity of bioactive compounds.

**140mg**

### Phytowhite Tripeptide

Potent antioxidant that is naturally present in living cell, essential for various metabolic processes, promotes cell proliferation and acts as an excellent antiaging compound.

**200mg**

### Ubiquinol

Advance form of CoQ10, an active antioxidant in the most bio-absorbable form.  
 Offers significant benefits in overall health and skin.  
 (6x higher mg than the previous formula)

**60mg**

## VP AF SOFTGEL

### Dermacenta

(Soy Buds Vegetal Placenta)  
**20:1** extraction concentration ratio. Equivalent to **8,000mg** of vegetal placenta extract. High dosage with standard extraction value to provide essential concentration of bioactive compounds.

**400mg**

### Vitamin C

An essential water soluble vitamin that is commonly found in citrus fruits. Acts as an antioxidant, reduces free radical damages and assists in collagen synthesis.

**100mg**

### Pomegranate Extract

Rich in phytochemical compounds and ellagic acid. Act as both antioxidant and anti-inflammatory

**80mg**
